

MAKARONITEHDAS

HANDMADE FRESH PASTA

At Makaronitehdas we are superbly proud of our talented people.

Our pasta chefs make fresh pasta daily, using two ingredients: Italian durum wheat flour and Finnish eggs. The heart of all Makaronitehdas kitchens is our large Italian pasta-making machine, with its bronze processing blades which are used to make all our differently shaped pasta delicacies.

You are very welcome to come and enjoy our restaurant where all the food is made fresh from the beginning.
