

MAKARONITEHDAS

## **HANDMADE FRESH PASTA**

At Makaronitehdas we are superbly proud of our talented people.

Our pasta chefs make fresh pasta daily, using two ingredients: Italian durum wheat flour and Finnish eggs. The heart of all Makaronitehdas kitchens is our large Italian pasta-making machine, with its bronze processing blades which are used to make all our differently shaped pasta delicacies.

**You are very welcome to come and enjoy our restaurant where all the food is made fresh from the beginning.**
